

Meet Ms. Morales

Computer Data Operator/Registration/Records

About Me

Having been a part of OPE since its inception in 1996, my journey from a classroom volunteer to the library paraprofessional in 1997 and eventually the computer data entry operator in 2012 has been nothing short of fulfilling. Welcoming new families to our beloved school brings me immense happiness and OPE has truly become my daytime family over the years. Outside of OPE, my heart lies in spending quality time with my two incredible grown children, my loving family, and cherished friends, while soaking in the serenity of the beach, my go-to place for relaxation and tranquility.

Learning something new is one of my favorite things to do!
